

# Rebel

Turf Type Tall Fescue

## Performs in the Shade

Rebel turf-type tall fescue . . . up to 30% finer and 188% denser than Kentucky 31. Now university testing is showing Rebel tall fescue performs exceptionally well in shaded conditions.

This is what two of the leading turf specialists are saying about the shade performance of tall fescues:

**Dr. Beard, world-famous turf agronomist at Texas A&M University:** "After five years of testing the performance of tall fescue at College Station, Texas, results show that more consideration should be given to its use in shaded areas - particularly in the South where bermudagrass does not persist in the shade."

**Dr. Funk, world-renowned turf breeder at Rutgers University:** "In four years of testing at North Brunswick, NJ, Rebel has shown promise of significantly improved shade performance."

If you want a finer, denser tall fescue that will perform well in the sun or shade . . . try Rebel.

New crop available  
Fall 1981.
