The reliable helpmate

No matter what kind of soil preparation help is needed, the Woods Model T42 Rotary Tiller will provide it. Gardening, landscaping or small farming are all made easier by the remarkable features built into this profitable dirt buster.

TRACTOR

It will till a 42" wide path down to 8" deep cleanly and easily with direct gear-drive and a unique blade design. Its spring-loaded tailgate leaves tilled soil in smooth, readyto-plant condition.

It's easy to hook up with exclusive 2-point mounting. And it will work on any 16-25 hp tractor with a Category 1, 3-point hitch and 540 rpm PTO.

Like all Woods products, the Model T42 Rotary Tiller is built tough to take punishment and is virtually maintenance-free.

Put the Woods Model T42 to work for you and your customers. Send for complete specifications today.

Woods Model T50 Rotary Tiller works a 50″ swath.

WOODST

Division of Hesston Corporation Oregon, Illinois 61061

Woods products are backed with 35 years of dependable quality.

When SENCOR goes where the goosegrass grows ...

the goosegrass goes.

Apply [®]SENCOR 75 Turf Herbicide to your actively growing bermudagrass turf at the recommended rate at the recommended time and it's goodbye, goosegrass.

SENCOR is formulated as a dry flowable herbicide for easy mixing and application with

standard spraying equipment. SENCOR works two ways to effectively control goosegrass in bermudagrass—by contact

SENCOR is a registered TM of the Parent Company of Farbenfabriken Bayer GmbH, Leverkusen activity and root uptake.

Applied prior to dormant turf, SENCOR also controls such broadleaf winter annual weeds as common chickweed, corn speedwell, henbit, parselypiert, and spur weed. Ask your turf chemicals distributor for SENCOR 75 Turf Herbicide.

Diamond Shamrock tags Mitchell for V.P.

Kenneth P. Mitchell has been named vice president of the Specialty Chemicals Group of the newly-formed Chemical Unit of Diamond Shamrock Corporation, a Cleveland-based commodity and specialty chemicals operation.

Mitchell joined Diamond Sham rock

PEST CONTROL

OPERATIONS

in 1964 as a salesman. Prior to his new position, he served as vice president/ general manager of the Process Chemicals Divi sion. In his new capacity, Mitchell will be responsible for the company's agricultural chemicals, animal health process chemicals and metal coatings divisions, as well as Duolite International.

SEED

Walkiewicz tapped for ASA presidency

Charles Walkiewicz, vice president of Vaughan-Jacklin Corporation, Bound Brook, NJ, has been elected president of the Atlantic Seedsmen's Association. The trade association represents the lawn, garden, farm seed and allied industries in the Northeast United States.

Walkiewicz began his 35 years in horticultural distribution as a billing clerk with McHutchinson & Co. He worked with William H. Neiman & Co. as general manager in charge of operations and when it was sold to Vaughan's Seed Company in 1971, he transferred there as assistant to John Vaughan, working his way up to his

Scientific Guide To Pest Control Operations

Domestic: \$32.50* (hardcover) Foreign \$37.50* (hardcover)

The SCIENTIFIC GUIDE TO PEST CONTROL OPERATIONS is designed to provide a sound basis for studying the scientific aspects of pest control and promote technical competence. It places emphasis on urban and industrial pest problems. This volume also covers the laws and regulations concerning the pest control industry.

The SCIENTIFIC GUIDE TO PEST CONTROL OPERATIONS is written for owners, supervisors, servicemen, salesmen, students, persons preparing for state certification under the EPA/state programs for commercial pesticide applicators, and people interested in structural pest control.

The SCIENTIFIC GUIDE TO PEST CONTROL OPERATIONS - a must for anyone involved in the field of pest control!

Quality, by our standard, is something which goes a lot further than making tools. To Stanley, it means: a full line of tree trimmers for every job; the best warranty in the business; complete parts backup; and distributors to help you anywhere in the country. It's also the efficiency, safety and dependability of hydraulic power. We don't trim on anything so that you're able to do your trimming faster. Stanley Hydraulic Tools: 3810 S.E. Naef Road, Milwaukie, Oregon 97222 Phone (503) 659-5660. Telex 360771. Write or call.

NEWS from page 85

cations throughout the United States measuring such turf characteristics as color, density, disease resistance, heat, and cold tolerance, shade adaptation and appearance.

Midnight's most unusual characteristic is its dark, blue-green color. Its overall disease resistance, density and wide range of adaptability contributed to its first-place rating. Midnight is recommended for use in sod production, lawns, golf courses, parks, and athletic fields. It is a product of Turf-Seed, Inc., Hubbard, OR. The 1982 crop production is nearly sold out. Availability will improve in the fall. For more information, write or call Turf-Seed, Inc., P.O. Box 250, Hubbard, OR (503) 981-9571.

American Association of Nurserymen Governor John Chiapelone, left, of Burlingame Garden Center, Burlingame, CA, presents a \$1,570.53 check to AAN Executive Vice President Robert Lederer. The check from the California Chapter of the AAN will go toward the Horticultural Institute's Endowment Fund Founder's Grant. The gift will be added to the \$9,050 already contributed by individuals, business firms and associations to the Founder's Grant. Earnings will be used to support the HRI Endowment Fund's operating expenses.

Mobay goes nationwide to talk to customers

Mobay Chemical Corporation, Specialty Products Group, of Kansas City, is currently conducting nationwide interviews of pest control operators, golf course superintendents, landscape archi tects and commercial lawn care operators to refine its knowledge of the specialty chemicals market. The Specialty Products Group was formed last year to market Mobay's expanding list of chemicals to the professional turf and pest control fields.

Allen Haws, Manager of Specialty Chemical Sales for the Specialty Products Group, says, "We're finding out exactly what our customers want and need. Based on our research results so far, we're focusing on their application, packaging and information problems."

HORTICULTURE

HRI to publish new horticultural findings

The Horticultural Research Institute will publish "The Journal of Environmental Horticulture" early in 1983.

Edited by Dr. Thomas A. Gretz, head of the Department of Horticulture at Virginia Polytechnic Institute and State University, the Journal is designed to rapidly communicate relevant research findings to a broad readership in the nursery and scientific communities. Papers considered for publication will be reports of original research, either basic or applied, and review articles related to environmental horticulture. Each article will include a non-technical summation of how the information presented will be of value to the nursery industry.

"The Journal of Environmental Horticulture" will be a quarterly publication after its introduction early next year. Regular subscription prices will be \$25 a year. Contact the Horticultural Research Institute, 230 Southern Building, Washington, D.C. 20005.

Stauffer Chemicals selects ad agency

Stauffer Chemical Company of Westport, CT, has chosen Barker Campbell & Farley for the advertising and sales promotion of its Agricultural Specialty Products. The Virginia Beach, VA, based ad agency will represent products including Betasan crabgrass control, Devrinol pre-emergent weed control, Vampan fumigan, Imidan tree insecticide, Aspon turf insecticide, and others. Barker Campbell & Farley organized their horticultural and agricultureal group in May 1982. J. Robert Stiffler, senior vice president of the agency, will be the account supervisor.
