

How John Deere makes it easy to choose the best mowing tractor.

Although the new 20-hp 420 Lawn and Garden Tractor and 17-hp 650 Compact Utility Tractor have a lot in common, it's not too difficult to choose the one that best suits your needs.

Because as similar as they are in mowing capabilities, you'll find they're designed quite differently. So choosing between them is largely a matter of deciding what you need in a tractor.

If you'd prefer a gasoline engine, choose the 420. Or if you're already using diesel fuel, you'll probably want the 650. Both tractors have fuel-efficient 2-cylinder engines.

For easy operation, the 420 features hydrostatic drive. It lets you control travel speed and direction with one lever. An easy-shifting 8-speed transmission on the 650 has a built-in shuttle shift.

Check standard and optional equipment. Front and center PTO drives are standard on the 420, while a rear 540-rpm PTO is standard on the 650. A Category 1 3-point hitch is standard on the 650; a Category 0 3-point hitch is optional on the 420.

A standard differential lock, optional mechanical front-wheel drive and optional power steering make the 650 well-suited for tough jobs where traction is a problem.

Standard power steering and a 26-inch turning radius give the 420 outstanding maneuverability. A standard differential lock provides added traction if needed.

No matter which tractor you choose, you'll get John Deere quality and human engineering in a compact package. Plus a choice of center- and rear-mounted mowers and dozens of capacity-matched attachments for a variety of jobs.

For the name of the nearest dealer, or free folders on the 420 and 650 Tractors, call 800-447-9126 toll free (Illinois 800-322-6796) or write John Deere, Dept. 50/67, Moline, IL 61265.
