WTT 93

WE'VE GOT THE DRIVE TO KEEP YOU CUTTING.

WITHOUT CLUTCHING.

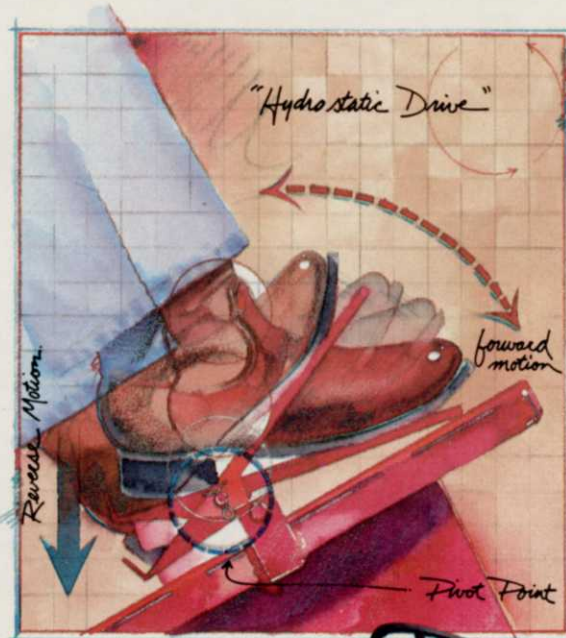

We go all out to give you the kind of riding rotary mower you want most.

A mower that keeps you cutting. Gets the job done.

So we equip our Toro Groundsmaster 72® and Groundsmaster 52® mowers with hydrostatic drive. For greater durability in four ways.

One, it keeps you cutting without clutching. Which means no downtime to replace belt, chain or clutch. Because there are none to replace.

Two, you get easy, one-pedal operation of forward and reverse. No costly gear stripping caused by improper shifting.

Three, our drive is constantly lubricated by hydraulic fluid. Reducing friction and parts wear even more.

Four, unlike other hydrostatic

drives, ours has direct drive coupling. And combines motor and pump in a single housing, without the usual hoses and belts connecting two units.

And we add more durability with other features designed to keep you cutting. Like a Donaldson air cleaner and a unique cone shaped spindle.

Call your Toro® distributor. He'll tell you all you want to know about Toro riding rotary mowers.

Without clutching.

**THE PROFESSIONALS
THAT KEEP YOU CUTTING.**
