

Seeding REBEL in late September

Only seven weeks after seeding, REBEL provides a rich carpet of dense, fine-leaved turf on Washington D.C.'s Congressional Country Club, Bill Black, Greens and Grounds Chairman.

# Proven performance makes Rebel number one.

University tests across the country have proven most tall fescues have some good qualities; but in overall performance Rebel beats them all.

In these trials, turfgrass varieties were evaluated for appearance, establishment and quality of stand, resistance to drought and disease, and mowing qualities. REBEL took top honors in all-around attractiveness and performance:

- Resists heat, drought and disease
- Fine-textured (30% finer-leaved than Kentucky 31)
- Dense stand (188% denser than Kentucky 31)
- Excellent shade tolerance
- Rich color
- Fast establishment

For an all-around, top-performing tall fescue, try REBEL. Test it for yourself.
