

New Team prevents your weeds with all-season stamina. It's gentle on cool season turf grass, including bluegrass, ryegrass and other fairway grass species. And new Team pre-emergence herbicide consistently delivers better control, longer control for your crabgrass. It also provides head-to-head goosegrass control.

New Team spreads very easily. The clay carrier makes equipment calibration simpler

and application more accurate. It also reduces dust problems.

Call time-out on crabgrass and goosegrass on your turf, for all season. With new Team.

Talk to your Elanco distributor soon.

Or write:

## Oftanol registered for crane fly larvae

Oftanol 2 insecticide, a liquid organophosphate insecticide developed by Mobay Chemical Corp. for insects in turf, has received EPA registration for use against crane fly larvae.

A native of northern Europe, the crane fly is now a major insect problem in Washington and Oregon, and is moving south.

Tests conducted by Mobay have proved that one application of Oftanol 2 provides effective control of crane fly larvae at a rate of one gallon per acre.

## Trailer allows dual purpose

Long/Run Trailers introduces its ATV-Special, a trailer designed to transport a three- or four-wheeler, and/or to be pulled off road by the ATV. It features a tilt bed, removable sides, and a two position tongue for level towing on- or off-road. Long/

Run says it's a street legal trailer with semi-flotation tires, lights, and safety chain.

## The Growing Choice

Reinco Hydrograssers and Power Mulchers offer you the dependability you need because they are designed with the operator in mind. Our Hydrograssers range in capacity from 800 to 3500 gallons and feature easier to maintain "Hydro-Jet" agitation. Reinco Power Mulchers utilize time proven straight through drive while the M80C offers as standard a variable speed automated bale feed system.

Reinco has been growing for over a quarter century. Why not make us your next growing choice?

# 110 KINDS OF PLANTS. 43 TYPES OF INSECTS. 1 SPRAY.

You're looking at a picture, not of a place, but of an idea: ORTHENE<sup>®</sup> Tree and Ornamental Spray, and why it means so much to professional gardeners, nurserymen, arborists and golf course superintendents.

ORTHENE offers blanket protection against an amazing variety of insect pests. It's cleared for use on a long list of trees and plants, from orchids to roses to ponderosa pine, even for turf. Cleared last year for use against turf insects, ORTHENE<sup>®</sup> has just been okayed for mole crickets in Florida — the main enemy of professionals' healthy greens and fairways.

By using ORTHENE, one

spray lets you kill pests like tent caterpillars, whiteflies, Japanese beetles and thrips on contact. Plus it provides lasting residual action against other insects from aphids to scale crawlers to sod webworms. It's a great way to make the whole job of protecting flowers, trees and turf simpler, and more effective.

If you're a professional in the plant care industry, ORTHENE can actually make it easier to do a better job of protecting plants. You ought to know more about it. To find out, send in this coupon.

# Slash Costs of Tree Anchoring!

## New Duckbill Total System Tree Anchor Installed in Seconds by One Man

The Duckbill Total System Tree Anchor, a completely pre-assembled tree support for trees up to 6 inches in diameter, is available in two models. Model 40, which holds 300 lbs. in normal soil and anchors trees up to 3 inches in diameter, consists of the anchor with 12 feet of galvanized steel cable attached, a tree collar and a 1/16 inch cable clamp. Model 68, which holds 1100 lbs. in normal soil and anchors trees up to 6 inches in diameter consists of the anchor with 13 feet of galvanized steel cable attached, a tree collar and a 1/8 inch cable clamp. Both models are available 3 in a kit or in bulk. A kit of three anchors one tree.

Because it is pre-assembled, the Total System Duckbill Tree Anchor can be installed in seconds by untrained labor. Several trees can be anchored in the time it takes to anchor one tree by conventional methods.

Duckbill is driven into the ground with a drive rod and heavy hammer. An upward pull on the cable rotates the anchor into load lock position, like a toggle bolt in undisturbed earth.

### Safe! Strong! Permanent!

Duckbill Anchors are available in different models with holding capacities from 300 to 20,000 lbs. They are the safest anchor you can use because no rigid rods are left above ground to injure people or damage motorized equipment. Once in the ground, Duckbill **stays** in the ground. When anchoring is no longer needed, simply cut cables at ground level, leaving no sign anchors were used. For complete information and your nearest supplier call or write today. Foresight Products Inc., 10780 Irma Drive, Unit 22, Northglenn, Colorado 80233. Phone 1-800-325-5360 or (303) 457-0222 in Colorado.

## Herbicide controls brush problems

Spike DF, marketed by Elanco Products, controls brush and weeds which choke fence rows and ditch banks. Spike DF is a dry, flowable herbicide which mixes easily with water for spraying areas where brush is a problem.

Spike can be applied at any time of the year, except when the ground is frozen. One application controls mul-

tiflora rose, briars and a variety of woody and herbaceous plants. Livestock can graze in areas where Spike is used, according to label directions.

Sprayers and spreaders for applying Spike are available free from Elanco Products through a promotional program directed toward end users and dealers. Spike is also available in pellet form in a dispensable container.

## Wide-boom spreader cuts fertilizer costs

The Airjet pneumatic fertilizer spreader is said to improve spreading efficiency and cut costs by almost eliminating frequent boom-instability problems. The spreader, which comes from Britain, boasts boom widths of 53, 60 and 66 feet.

The manufacturer, along with Britain's National Institute of Agricultural Engineering, developed an innovative boom-suspension system which gives the spreader its superior performance. The boom remains parallel to the ground, even when working on slopes, and the suspension system suppresses the bounce, sway and yaw movements which cause erratic spreading. Also, it protects the boom structure against potentially damaging vibrations and shock loads transmitted through the tractor mounting.

# Start getting better quality turf... from the ground up.

## Country Club & Greenskeeper Turf Products

**Unique homogenous granules  
mean even element distribution.**

Every particle of Country Club & Greenskeeper fertilizer contains a balanced combination of N-P-K. So no matter what sizing or coverage your turf requires, each plant comes in contact with every important element for consistent quality growth and extended feeding.

**Your turf grows beautifully...  
and economically, too.**

Because **Lebanon** products are homogenous and contain the right balance of insoluble and soluble nitrogen, you get even element distribution for quick green-up as well as long range feeding. The result? You'll see significant savings grow along with a lush, green turf.

**There's no turf too tough  
for Lebanon products.**

We have more than three dozen standard fertilizer, sulphur-coated urea blends, and fertilizer/chemical control products to solve just about any turf problem. But soil conditions vary. So if your soil has special needs, we'll be happy to put our more than 35 years' experience to work to meet those needs. We can formulate an exclusive blend for you that will coax greener turf from your soil.

## Core cultivator has new re-styled engine

The newest model of the Ryan Greensaire II core cultivator features a streamlined 8-hp Kohler engine.

The engine has a five-quart gas tank for 25 percent more fuel capacity than previous models. The oil dipstick is on top of the engine for easier access. And, instead of a separate stop switch, there is a "stop" position on the throttle.

The self-propelled Greensaire II can cover up to 6,900 sq. feet per hour with a 24-inch swath and two-inch coring pattern that removes 36 cores per square foot.

Circle No. 200 on Reader Service Card

## Direct lawn applicator eliminates overspray

A unique roller arrangement in Danville Industries' new express direct lawn applicators puts chemicals only where you want them. Liquid fertilizer or weed killer can be spread evenly and directly without overspray possibly harming nearby gardens or shrubs.

Two express models are available. The hand model has a 30-inch roller

## MT3000™ SPRAYER CONTROL

Only  
\$895.00

The MT3000 pays for itself many times over by eliminating costly over and under applying of herbicides, pesticides and liquid fertilizer. Simply select your desired rate of chemical application and the MT3000 will maintain that rate regardless of speed or boom control change. Take the guess work and waste from your spray program and watch the savings go in your pocket.

Also from Micro-Trak:

**FLOWTRAK™**  
SPRAYER MONITOR

Provides direct measurement of speed, application rate, total liquid applied, area worked and distance.

# QUALITY WORK AT OUR END MEANS QUALITY WORK AT YOURS.

The Melroe Company insists on maintaining the highest standards of quality in design and manufacturing in their versatile Bobcat loader line. Like groundskeepers and landscapers, we demand high quality materials and workmanship, and that goes into every machine we build. Even with those stringent requirements, we supply you with a top quality loader at a competitive price.

That quality is reflected in ever-increasing demands for Bobcat loaders and attachments by groundskeepers and landscapers in every segment of the landscape and grounds maintenance industry. Bobcat durability, ease of operation and maintenance, comfort and safety, parts and service reliability, and a strong dealer support network, give you job performance that can't be equaled by any other loader.

The Melroe Company's dedication to building quality machines is your assurance of value and performance. Landscapers and groundskeepers have learned to rely on Bobcat quality to help build their own business on that same reputation.

# TRY THIS WITH ANY OTHER

Others do their level best to convince you that a flashy-looking riding mower is just what you need.

But for all those times when "level best" isn't good enough, consider a 68" or 84" Triplex from National.

They're engineered with ground-hugging stability that lets you cruise over virtually any terrain. And even a beginner gets professional results because the Triplex's three floating reels reach out over crowns or curbs without ever scalping.
