

A FUNGICIDE HAS TO BE SPECIAL TO BE TREATED LIKE THIS.

There are more superintendents on more courses treating more acres with Daconil 2787® fungicide than with any other turf fungicide.

In fact, nearly two-thirds of all U.S. golf courses are now being treated with regularly scheduled applications of Daconil 2787.

Because Daconil 2787 is the only fungicide that has a proven record of delivering consistent, first-rate control of 12 major turfgrass diseases. Including such tough ones as Helminthosporium melting out, benomyl-resistant dollar spot and large brown patch.

What's more, there has never been a single documented case of resistance in over 15 years of continuous use. Even on courses where Daconil 2787 was applied at weekly intervals for many seasons. Convincing proof that you don't have to alternate Daconil 2787 to avoid developing resistance.

And when it comes to cost per 1000 sq. ft., a single

application of Daconil 2787 Flowable Fungicide is more economical than most other fungicides.

Plus you never have to add a costly spreader/sticker to Daconil 2787. It's already built into the formulation to assure full and even plant coverage for maximum disease prevention.

So this season, be one of the thousands of superintendents who made the right choice. Make your fungicide Daconil 2787 on tees, greens and fairways.

Fermenta Plant Protection Company, 7528 Auburn Road, P.O. Box 348, Painesville, Ohio 44077.

 **FERMENTA**
PLANT PROTECTION

Always follow label directions carefully when using turf chemicals.

profits by eliminating the time and cost of hand mulching.

The unit shreds and blows mulching material quickly and with a higher quality cover, allowing for faster more uniform growth. The included extension hose is for difficult-to-reach areas.

Mulching applications include newly-seeded lawns, bedding plants, around trees and shrubbery, and agricultural applications such as berry beds. Optional models and attachments are available.

Asphalt paver perfect for landscape market

An asphalt paver from Salsco, Inc. is perfect for the landscape/golf course industry. It will pave walks, bike paths, guardrail aprons, highway shoulders, utility trenches, carparks, park paths and golf cart paths.

According to its manufacturer, the Sidewalker increases production by 60 percent and decreases manual labor by 60 percent.

The Sidewalker paves swaths from 36 to 72 inches at 50 feet per minute. It has a free-floating screed with adjust-

ments to control asphalt thickness and compensate for variations in ground contour.

Wooden equipment has a natural durability

Modular wooden playground equip-

ment from Creative Playgrounds, Ltd., Sun Prairie, Wis., is constructed of durable 4x6- and 6x6-inch pressure-treated southern yellow pine or redwood for safety, while providing an imaginative, healthy play environment.

The designs are flexible and expandable. All parts are pre-cut, pre-drilled and finished, for ease of construction and maintenance.

Correction

In the January issue of WEEDS TREES & TURF, a news release appeared on page 6 about a new engine that Briggs & Stratton was to have introduced at the Golf Course Superintendents Association of America trade show.

However, the company's advertising agency (The Cramer-Krasselt Co.) says that, "due to an unanticipated pushback in production, there exists some ambiguity as to when the product will actually be available."

THE MULCHING SOLUTION

Goossen Bale Chopper

In the field since 1982, the Goossen Bale Chopper is a proven landscaping machine. One or two operators lay down an even layer of mulch on newly seeded lawns of any size (the Bale Chopper is easy to maneuver in even the smallest residential applications). The even coverage, WITHOUT tearing and spreading bales by hand, means better moisture retention, better germination.

Complete with interchangeable hose and directional spout available on both self-powered (gas engine) and tractor-mounted PTO models.

Fine Fescue for Sure

Maintaining a fairway can be a real headache. Fine fescues give you less to worry about...

Keeping your course looking great and your budget balanced can be a real headache. Oregon grown fine fescues can make your job just a bit easier. When used on tees and fairways, fine fescues offer shade tolerance with low fertilizer and water requirements. Fine fescues mix well with ryegrass and bluegrass without getting pushy, and they have a tight, upright growth habit. Oregon fine fescues germinate and perform better than imported varieties.

Where do you *find* fine fescues? On tees, fairways, roughs, parks, home lawns, industrial campuses and anywhere a fine textured, shade tolerant turf is desired.

Where do you get fine fescue? Ask your distributor for Oregon grown fine fescue for sure!

For a series of eight tech sheets on Oregon grown Chewings and creeping red fescues, call or write

A Special Get-Acquainted Herbicide Offer:

Buy 25 Pounds of Dyclomec[®] LANDSCAPING HERBICIDE Get a Spred-Rite[®] G FREE.

An efficient combination for season-long vegetation control. In landscaping, turn problem areas into beauty spots. In Nurseries, help young trees mature up to 25% faster.

Spread Dyclomec herbicide granules in any precise area where you want season-long weed-and-grass control without injury to deep-rooted woody ornamentals.

Form a perfect circle around a tree trunk; draw an exact line along a fence; turn the earth in ornamental shrub beds into beauty spots; keep competition away from young trees; it's all so easy with Dyclomec.

Moisture carries the active ingredient into the upper layer of soil, where it stays fixed with virtually no lateral movement. A vapor barrier is formed in which no seeds can germinate, and through which no sprout can penetrate.

Proper granule distribution is important, and the patented Acme[®] Spred-Rite[®] G is the perfect tool.

Do You Have Any Questions About Using Dyclomec?

Dyclomec is an exceptionally versatile material that can be used in so many different situations. If you have any questions, we invite you to call Glenn Munger, the product manager for Dyclomec at PBI/Gordon.

Glenn is generally recognized as the leading authority on Dyclomec in the United States, and his help is yours for the asking. Call anytime during office hours.

Toll-free: 1-800-821-7925

The ProSource

Is your business worth \$2.90 a week?

\$2.90 won't buy much these days. That's why membership in the Professional Lawn Care Association of America is such a bargain. Membership can cost as little as \$150 a year — \$2.90 a week. And PLCAA membership brings with it benefits available nowhere else:

- Publications like the 64-page Safety Manual; the Technical Resource Manual; the Management Monograph Series; the Legal Update Bulletin; and Turf Talks, PLCAA's information-filled newsletter.
- Access to group health, life, and disability insurance tailored to your business needs.
- Regional seminars, and PLCAA's annual Conference and Show to keep you up with changing technology.

To find out more, call (404) 977-5222 or fill in the coupon and mail it today!

Send me more information on what PLCAA can do for my business.

GET THE FEELING THEY KNOW SOMETHING YOU DON'T?

They do. It's their job to know things **first** and then pass that information on to you **fast**. Things like new turf management techniques, effective methods of insect and weed control, what really works... and what won't.

LOOK FAMILIAR?

They should. You've seen them often at turf shows, seminars, conventions — wherever industry news is in the making. They're the editorial and sales management team of WEEDS TREES & TURF. Please meet (sitting from left to right) Heide Aungst, Jerry Roche, Ken Kuhajda, (standing from left to right) Dick Gore, Bob Mierow, Ron Kempner, Jon Miducki and Bob Earley.

THERE'S NO GRASS GROWING UNDER THEIR FEET.

They apologize for not always being in when you call, but great stories are found in the field, not in the office. These pros know that the only way to really cover the green industry is to get out and be a part of it. From turf test plots in Oregon to the corridors of our nation's capital, they're following the leads, surveying the markets, and interviewing

the landscape professionals who make our industry grow. Then, they use their years of experience to pull it all together, analyze and present it to you in a crisp, easy-to-read and easy-to-use style. That way, you have the information you need to do your job better, faster and more effectively.

The next time you want to know something about the green industry, give them a call. If you can't reach them at the office, don't worry. **They'll reach you** in the pages of WEEDS TREES & TURF.
