

BANOL®

Pythium Blight

Pythium Damping-off

Positive Prevention or sure cure for Pythium disease

Preventative control of Pythium blight and damping-off can save you from major turf loss to these destructive diseases. Just apply BANOL® fungicide every 7 to 21 days when conditions are favorable for disease development.

But if Pythium is already damaging your turf, cure it fast with BANOL. Applied at the higher rates, this highly-effective fungicide soon has Pythium under control.

BANOL is systemic, so it won't wash off like contact fungicides. And unlike many fungicides, BANOL shows no indication of resistance development. Further

advantages: non-phytotoxic, non-leaching, compatibility with other fungicides and insecticides.

For complete information on nourishing and protecting your turf, join the NOR-AM Turf Management Program. Write to: Communications Department, NOR-AM Chemical Co., 3509 Silverside Road, P.O. Box 7495, Wilmington, Delaware 19803.

IMPORTANT: Please remember always to read and follow carefully all label directions when applying any chemical.

HERE'S ONE OF
THE FEW TURF
PROBLEMS WE
CAN'T PREVENT.

Look to Chipco for full-course
protection against disease,
insects and weeds.

When it comes to turf care, you look for products from companies you can count on, year in and year out. That's why more golf course superintendents look to Chipco professional turf products than any other brand.

Over the past 30 years, Chipco has developed outstanding turf products such as Chip Cal many superintendents will remember for its outstanding control of poa annua. More recently we introduced Chipco® Ronstar® preemergence herbicide, Chipco 26019 fungicide and Chipco Mocap® nematocide-insecticide.

But we're not standing still. Just last year, we ushered in a new era in pythium prevention with our new Chipco Aliette® fungicide—the first of a new generation of advanced chemistry to carry the Chipco name.

Naturally, products like these are only as good as the company that stands behind them. And nobody offers you more technical support than Chipco with our field force exclusive to turf and ornamentals.

In 1987, Chipco will introduce new formulations of three Chipco products. But we're not stopping. Exciting new products soon to earn the Chipco name are in various stages of development.

So when it's time to order your turf care products, remember Chipco, the company with the ongoing commitment to helping you care for your course.

Rhone-Poulenc Inc., CHIPCO Department,
P.O. Box 125, Monmouth Junction, NJ 08852.

CHIPCO®

Please read labels carefully and use only as directed.
Chipco Mocap 5G is not yet available for sale.

CHIPCO® RONSTAR® MOCAP® and ALIETTE® are registered trademarks of Rhone-Poulenc Inc.

DIAZINON. IT'S LEGAL.

D·z·n® Diazinon is legal for use on golf courses and sod farms.

While the EPA has proposed cancellation on sod farms and golf courses, CIBA-GEIGY continues to support and defend all uses of Diazinon.

Diazinon. It's been your answer to turf insects for years. And still is.

DIAZINON
