One-Pass Power Rake 'n' Vac

This one-pass grounds maintenance machine removes thatch, aeration plugs, and debris in a 5-foot swath — and mulches the materials, so they pack better and decompose faster.

Mid-flex design and 10" rollers on the floating deck give the PTO-driven flail Rake excellent tracking. An accessory hand-held vacuum hose is also available for the Vac, which is powered by its own 11 H.P. gasoline engine.

The large 128 cu. ft. capacity trailer, with automatic endgate, tilts for easy unloading.

Ask about the convenient terms available with Goossen's all-new **TurfTeam Leasing.**

MOST COMMERCIAL MOWERS DON'T HAVE THE GUTS TO MAKE THIS COMPARISON.

Look carefully at a Scag mower. Then compare it to the competition. Scag commercial mowers outperform and outlast the competition time and time again. Why? Because Scag commercial mowers are simply the best, from the inside out.

Scag also manufactures a complete line of commercial riders from 40- to 72-inch cutting decks and 13 to 20HP engines, plus a new 61-inch hydrostatic rider. See the complete line of Scag commercial mowers today.

- New 72-inch deck with Kohler electric start engine makes short work of long jobs. Walker decks available from 32- to 72-inch cutting widths, 8 to 20HP engines.

- Five-speed gear box gives Scag walkers a faster ground speed than many competitive belt driven machines.

- Five gallon fuel tank extends time between refueling.

- Comfortable operator presence controls for increased safety.

- Scag's Twin Power Belt doubles friction to pulley surface.

- "No-tread" flotation caster wheels and carefully balanced deck combine to give a manicure-finish cut every time.

- Oversized pulleys and heavy-duty spindle housings are engineered for durability and serviceability.

MEET THE PRO

EXPEDITETM

by Monsanto

EXPEDITE™: THE PROFESSIONAL SYSTEM

PROfessional system of solutions

Expedite provides a complete pesticide delivery system, consisting of specially formulated, premixed pesticides and an application lance. Designed to solve a variety of application problems with ease and convenience, Expedite offers professional results through an advanced spray application technology. Additional chemistry is being developed to expand the Expedite product portfolio.

PROgrammable control and accuracy

Easy-access controls on the Expedite lance let you adjust swath width, droplet size and flow rate for precise, accurate spraying. Two application discs let you match spray patterns to varying situations. Plus, the built-in pacer control allows for consistent walking speed and accurate calibration. It all adds up to efficient, low-volume spraying you can program for superior performance.

PROmotes effective weed control

Both the Expedite grass and weed herbicide and broad-leaf herbicide are specially formulated to provide effective control of labeled weeds. And the visible spray pattern lets you see exactly where you're spraying for improved accuracy. As a result, you can count on Expedite for general trimming and edging, spot treatments and broadcast applications.

...M TO SIMPLIFY PESTICIDE APPLICATION

PROfitability improves

Cost-effective Expedite lowers your expenses by making spraying a fast, efficient, one-man operation. Downtime is substantially reduced and so are additional equipment and application costs. The premixed chemicals are designed to eliminate mixing errors and waste for even more savings.

PROtecs your workers

Expedite provides a closed system, and is designed to reduce worker exposure to pesticides. Ready-to-apply formulations come in specially designed 5-liter cartons that fit right into the backpack, so there's no exposure from mixing. Cleanup is simple and easy. And the lightweight Expedite lance and backpack minimize worker fatigue.

PROductivity increases

Expedite puts an end to time-consuming stop-and-start spraying. There's no mixing, measuring, water hauling or pumping. In fact, one 5-liter pack of Expedite pesticide covers up to one acre—the same as refilling a 3-gallon backpack sprayer 28 times! Just hook up, prime and spray—faster and farther than ever before.

THE PROFESSIONAL SYSTEM FOR PROFESSIONAL RESULTS*.

The PROfessional system

Expedite provides a pesticide application system with everything you need for professional spraying.

- Rechargeable Battery-Powered Lance
- 2 Application Discs
 - Serrated — for broadcast spraying and banding (12"-36" swath)
 - Square — for trimming, edging and spot treatments (6"-24" swath)
- Disc Ejector Tool
- Calibration Cup
- Backpack
- Battery Recharger Pack
- Pesticide and Cleaner Formulations

*We PROMISE

Our **90-DAY GUARANTEE*** assures a full refund if you're not satisfied with Expedite equipment or pesticides. In addition, our **ONE-YEAR WARRANTY*** covers all Expedite lance parts and repair costs for one year from the date of purchase.

Meet the PRO today!

Solve your pesticide application problems like a pro, with the new system of solutions: **EXPEDITE.**

For more information about Expedite
call toll-free

1-800-225-2883 now.

*For complete details refer to the warranty provided with the Expedite lance.

AQUAPORE

Choose the subsurface irrigation system that leaves your designs unspoiled by unsightly, vandal-ridden sprinkler heads and bubblers. Choose Aquapore! Eliminate callbacks and replacement plantings from improper watering and stressful wet/dry cycles. Choose Aquapore!

Aquapore's patented, rubber and polyethylene pipe is porous and flexible, featuring a unique weeping action that dispenses water and fertilizers uniformly to the root zone. It reduces water consumption as much as 50 percent—important to

drought-plagued areas; and because there's no runoff, liability risks are minimal.

Choose an irrigation system that's simple to install, even for your sophisticated layouts; one that saves you time and money. Choose Aquapore! Select a system that's ideally suited for any commercial or residential situation—your options are limitless! Choose Aquapore!

Now that you've chosen Aquapore, write or call us for detailed information about the Aquapore system and the name of our nearest distributor.

Font'N-Aire®

From the City of Fountains

Font'N-Aire® is an aesthetically appealing, floating fountain that is biologically functional as well as visually appealing. Font'N-Aire® aids in the removal of unsightly algae in ponds and lakes without the use of chemicals or herbicides.

To improve water quality, Font'N-Aire® pulls oxygen deficient water from the depths and propels it as small droplets into the air. With an assortment of attractive spray patterns and horsepower ranges, Font'N-Aire® is capable of taking care of any of your fountain/aeration needs.

Font'N-Aire® features:

- Easy to install
- No complex underwater wiring conduits, pumps, pipes or valves
- Uses a more efficient, reduced horsepower pump
- Floating unit automatically adjusts to water level
- Additional units can be incorporated at a later date
- Lighted models available

We just eliminated your last excuse for buying a converted golf cart.

Introducing the Cushman® GT-1.
Suggested retail price: \$3,395.00*.

When you can have Cushman quality at a competitive price, there's no reason to accept second best.

The new Cushman GT-1 utility vehicle will outperform and outlast any converted golf cart on the market. Its frame and chassis are stronger and more durable. You'll find a bed

made of 14-gauge steel instead of 16-gauge steel. One-inch axles instead of 3/4-inch axles. And a proven Kohler industrial engine that's more reliable and easier to maintain.

When you need a utility vehicle that's been specifically designed for work instead of one that's been converted from play, contact your Cushman dealer for a GT-1 demonstration. Or call toll-free 1-800-228-4444 for more information today.

CUSHMAN
BUILT TO LAST
