Distributor's Own Turf Supplies™

It's understandable, because no other distributor offers what we do. Some suppliers may pass their pre-packaged fertilizers off as custom blends, but when it comes right down to it, their products simply aren't formulated to meet your specific needs. As a result, your expertise and input are ignored which turns into frustration for you.

At DOTS (Distributor's Own Turf Supplies), we do things differently.

Our fertilizer/pesticide products are

designed so you can develop your program professionally with specialized formulas for your specific needs. With a DOTS distributor, you're treated individually—not clumped together with others and sold "off-the-shelf" blends.

**We test the soil before
we make the formula.**

We realize that the markets you serve have different turf, climate, and soil conditions. You tell us your specialized needs and problems, we'll provide soil testing when

needed, and then work with you to prepare an individual solution. It's easy on your part, thorough on ours.

All DOTS products are designed to meet the highest industry standards in uniformity and performance. In-house quality control means that each order delivered to you complies with our rigid specifications, assuring you the quality you expect.

Just look for the red dot to know you're getting the best... from the best distributor. For more information, call **1-800-345-DOTS.**
