

INTRODUCING THE NEW GENERATION

Definitely Darker

New Rebel Jr. — Darker by far than other turf-type tall fescues. An offspring of Rebel and Rebel II, it's bred especially for its darker color and moderately low growth habit.

But darker color and lower growth aren't the only reasons to use Rebel Jr. You'll get a dense, persistent stand that's resistant to diseases and insects. And whether the area is sunny or shaded, low-medium maintenance is all it needs.

Insist on Rebel Jr. for sod, home lawns, parks, roadsides or golf course roughs. Unlike other tall fescues, Rebel Jr. gives you top performance, slower growth *and* a turf that's **definitely darker**.
