

Attend the 1993 Green Industry Expo in Baltimore...
 ...and do we have a conference for you!

Conference dates: November 14-17
 Trade Show dates: November 15-18
 Baltimore Convention Center, Baltimore, Maryland

In conjunction with the GIE trade show, the three sponsoring organizations have concurrent conference education programs for you to mix and match:
three conferences in one!

E D U C A T I O N A L
C O N F E R E N C E S

Attend any sessions in the three educational conferences when you sign up with one of the three GIE sponsoring organizations. Topics range from industry technical to business management.

1

ALCA
 ASSOCIATED LANDSCAPE CONTRACTORS OF AMERICA

2

PGMS
 PROFESSIONAL GROUNDS MANAGEMENT SOCIETY

3

PROFESSIONAL LAWN CARE ASSOCIATION OF AMERICA
 PLCAA

If you're in the lawn/landscape/maintenance business, this is YOUR educational opportunity.

Send me information on all three conferences RIGHT AWAY!

IF YOU'VE FORGOTTEN HOW WELL WE CONTROL MOLE
CRICKETS AND NEMATODES, CONSIDER THIS
A REFRESHER COURSE.

We wrote the book on mole cricket and nematode protection. Now we'd like to send it to you.

In it, we'll show you why there's nothing better for controlling mole crickets than OFTANOL Insecticide. It gives you excellent residual control. It costs about 30% less per 1,000 square feet than the closest competitor. And it stops mole crickets. Plus, it controls fire ants, too.

Also, we'll show you why there's only one choice for controlling nematodes. NEMACUR nematicide. It has a 20-year history of controlling more kinds of nematodes than any other product.

For your free booklet, call 1-800-842-8020. Or write Miles Inc., Specialty Products, Box 4913, Kansas City, MO 64120.

Examine the information. Then apply it. And you'll have a course everyone will study.

© 1993 Miles Inc. 935246

PRODUCT REVIEW

Golf carts double as cargo transports with add-on rack

Columbia Industrial Division has a Car-Go-Rack attachment to convert Columbia shuttles and Eagle ParCar vehicles.

The rack features include an all-steel cargo frame and a 5/8-inch marine plywood floor with non-slip covering.

Circle No. 202 on Reader Inquiry Card

Systemic fungicide battles oak wilt, Dutch elm disease

Ciba's Alamo fungicide helps control oak wilt and Dutch elm disease, two of the most deadly tree diseases in the U.S.

The systemic has been used successfully for more than two years in Texas to control oak wilt. University of Minnesota research confirms that the product is effective against both diseases, even in cooler climates.

If applied before symptoms appear, Alamo may rescue trees with up to 30 percent crown loss.

Alamo is injected with special equipment into the flare roots. Ciba recommends arborists be consulted to do the injection.

Voice memory pager keeps you in touch

Motorola's Voice Memory Keynote Pager is a miniature, portable answering machine.

Users can listen to messages instantly or play them back later by pressing a single button. The Voice Memory Keynote retains four eight-second messages in memory as a standard feature or two 16-second messages as an option.

The message can be heard at once or saved for later. Motorola also offers the Keynote Tone & Voice Pager, similar to the Voice Memory Keynote, but without the memory capability.

Both Keynote Pagers have an ergonomic, rotary, volume control to adjust sound to different environments.

Circle No. 205 on Reader Inquiry Card

Turf-type bermudagrass is drought tolerant, dense

Primavera is a new and improved seeded, turf-type bermudagrass from Farmers Marketing Corporation of Phoenix.

Primavera was developed in the same breeding program that is responsible for NuMex Sahara. Primavera is finer textured, darker green and has a greater density than common bermudagrass, says Farmers. Primavera is described as drought tolerant, and with improved stunt mite resistance.

Primavera performed well in recent tests at the University of Georgia. In evaluations for turf coverage, spring green-up, color and visual quality, Primavera ranked at the top of its statistical group.

Circle No. 206 on Reader Inquiry Card

The Ultra-Shed an answer to containment problems

The Ultra-Shed—from RGF Environmental Systems, West Palm Beach, Fla.—was designed in response to the Clean Water Act regarding pesticide storage and mixing and storm water run-off discharge requirements from equipment washing. The Ultra-Shed chemical containment building is available with various permanent pad designs and an optional Ultrasorb, closed-loop recycling system, which allows you to bring your current maintenance equipment washdown and mix/load facilities up to environmental par, while avoiding possible penalties, fines or soil remediation costs.

The Ultra Shed is available in several sizes, with optional overhang, special poly grid flooring, a wide variety of siding, roof and trim colors. Accessorize with extra storage shelving, overhead doors, windows, emergency shower/eyewash systems and pad designs.

Point and click

(no commands to memorize here)

We understand that the landscaping industry has complex processes such as scheduling, bidding and generating work orders. And because you don't have time to learn complicated commands, we integrated these processes into a computer program that is easy to use. The result? SuperScape for Windows and Macintosh with "push-button" graphics. All you have to learn is *point and click*. Call today for more information.

Dacthal.[®]

For everything it doesn't do.

— Dacthal doesn't let you down. It means healthier turf and a difference you can see. And that makes you look good with your customers.

— Dacthal doesn't leach, because it isn't water soluble, and it's biodegradable, too.

— Dacthal doesn't damage roots regrowing after drought. And don't worry about newly sprouted turf* either. Dacthal is the right choice in high stress situations.

— Dacthal doesn't let weeds get out of control. On crabgrass, annual chickweed, spurge, foxtail, Poa annua, and over 15 other annual grasses and broadleaf weeds, Dacthal is the proven, preemergent herbicide performer.

— Dacthal doesn't stress or damage roots, because turfgrass root systems have a high tolerance for it. And that means less stress and worry for you.
