INTRODUCING THE EXCEL

HUSTLER 3000 SERIES.

MORE *or* LESS

The Most Advanced Hustlers in History.

MORE competitively priced - the most competitively priced Hustlers in history.

Less downtime - attachments for productivity in summer and winter alike.

MORE premier components - Sunstrand pumps, Ross wheel motors, and Kubota water-cooled diesel engines, for example.

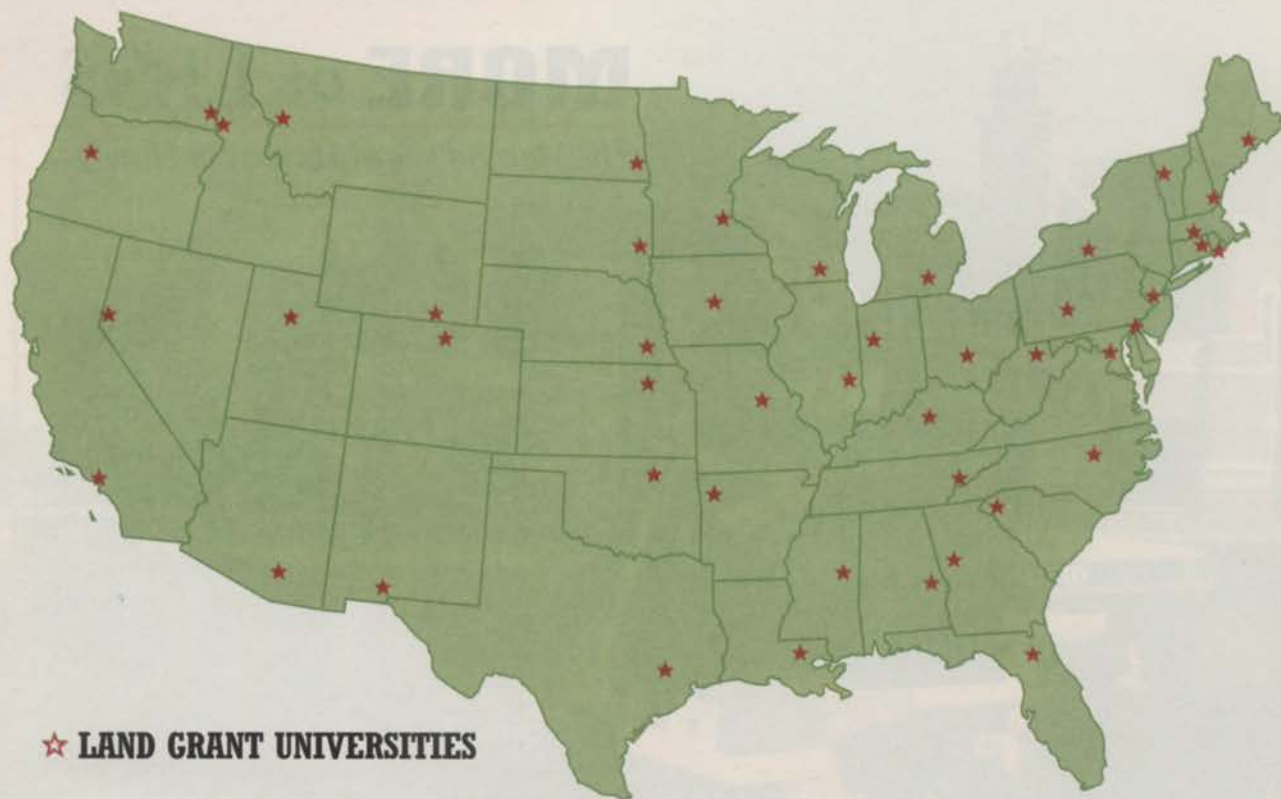

Less parts - 40% fewer parts than the competitors' units, absolute simplicity for more reliability, more ease of maintenance.

MORE clean air to the engine, thanks to a front-mount radiator with an easy-to-clean, slide-out screen.

Less maintenance - no daily lube points, and only six total.

**PENDULUM[®], AMDRO[®]
AND IMAGE[®]
THE PROFESSIONAL'S CHOICE
FOR TOP
TURF PERFORMANCE.**

Season after season, savvy professionals rely on PENDULUM, AMDRO and IMAGE for cost effective control of problem weeds and fire ants.

And season after season, their confidence is repaid with satisfied customers and better bottom lines.

It's why they're the treatments of choice on the market today.

**PENDULUM Herbicide
with pendimethalin. New for turf!**

PENDULUM provides proven turfgrass tolerance and excellent preemergent control of crabgrass, goosegrass and other troublesome weeds. And with its superior season-long performance, your customers will notice when PENDULUM swings into action.

And although gentle enough for over-the-top application to more than 260 labeled ornamentals, 45 broadleaf and grassy weeds don't stand a chance against PENDULUM.

**AMDRO Fire Ant Bait: Kills the Queen.
Kills the Mound.**

Fire ants may be annoying and dangerous, but they're not all that smart. That's why it's easy for AMDRO to fool worker ants into thinking it is food.

ER ONE THIS SEASON.

The worker ants take AMDRO back to the colony and feed it to the queen. The worker ants and the queen die, and the entire colony is eliminated — often in less than a week. And with baits like AMDRO, the colony won't relocate or satellite.

AMDRO is easy, because the worker ants do the killing for you. No other fire ant bait treatment works as fast and effectively to kill the mound. Which is why AMDRO is the undisputed market leader in fire ant control.

IMAGE Herbicide: Control the Uncontrollable.

IMAGE gets to the roots of the most troublesome weeds in warm season turfgrasses. IMAGE controls previously uncontrollable summer weeds like purple and yellow nutsedge, field sandbur, and dollarweed, as well as winter weeds like wild onion and garlic.

Attacking below the turf line, IMAGE inhibits protein synthesis in the root, so these pesky weeds starve and die. Which means it improves the IMAGE of warm season turfgrasses — year round.

PENDULUM®, AMDRO® and IMAGE® The professional's choice for top turf performance. They'll leave your customers' lawns looking like a million bucks. And you'll have more bucks in the bank!
