THE PRODUCTION MACHINE

"HIGH CAPACITY, EXCEPTIONAL TRIMMING CAPABILITY"

TURF BLAZER 1260

That's how this machine has been designed! The mammoth 126" appetite affords you 75% higher capacity than a standard 72" unit. With a combination of a 60" mower out front and two 38" hydraulically operated wings, you are assured of picture perfect floatation over berms and undulations. With wings strategically located in line with drive wheel pivot point, you can achieve

maximum trimming capabilities far superior to a 72" even under trees and bushes.

Add to this a field tested, 4-cylinder water-cooled, 40 HP diesel engine in conjunction with hydro-static transmission and you have a machine which will maximize your return on cost of acre cut.

Contact your local HOWARD PRICE distributor for a demonstration on your turf.
