

# PENDULUM

When it comes to season-long control of crabgrass, goosegrass, oxalis, spurge and many other troublesome weeds, PENDULUM®

\*Trademark, American Cyanamid Company.

©1996

herbicide gets down to business. No other preemergent turf herbicide can match its spectrum of weeds controlled and cost-effectiveness. • PENDULUM brand Pendimethalin also offers greater flexibility than ever before, with a complete preemergent product line that includes sprayable formulations, combination fertilizer products and now a 2% granular formulation. • When you consider cash rebates available to you from American Cyanamid, it's easy to see that PENDULUM really does mean business. Smart Business. • To learn more about the rebate offer or for the name of the PENDULUM distributor nearest you, call 1-800-545-9525, Ext. 931.

# MEANS BUSINESS

**N**eed a guide to help you find your way through the \$42 billion green industry? Your journey can begin here, with the *LANDSCAPE MANAGEMENT 1997 GREEN BOOK*.

We at LM truly hope your business is booming, whether you're in the lawn care, lawn maintenance, landscape contracting, golf course, athletic field or institutional facility market.

The business of information has never been bigger. And we're glad to be here for you with the green industry's most comprehensive reference guide to products and people.

Our graphics and production teams have made this *GREEN BOOK* easier to read. A publication with something for everyone—and a reference guide you'll turn to throughout the year—has to be easy to use!

You'll quickly see that we've made some improvements over past issues. Most notable is that we've added all known green industry E-mail numbers and World Wide Web addresses, including universities, associations and suppliers! With the growth of the Internet, it was something we knew you'd want.

As another extra, we've included articles on warm- and cool-season weed, insect and disease control, so that those technical wheels don't get rusty over the course of what might be a long, cold winter.

Our "Article Index" and list of contributing authors contains every feature article we ran in 1996, and the names of the industry professionals who helped to provide us with those articles.

The "News Index" lists all the news stories we ran in 1996 that dealt with the industry's biggest issues, some of which we hear could become hotter in 1997.

Another big improvement is our listing of state

pesticide control agencies and federal highway administration departments. In this era of increased public scrutiny and tighter regulations, these numbers will help you find information on EPA certification requirements, vehicle transportation restrictions and pesticide regulations.

The "Associations" section is your complete guide to the green industry's most active organizations. The people who run these organizations spend much of their time trying to come up with educational programs that will help you become better-educated, more 'heads-up' professionals. They need and deserve your support. If you don't belong to at least one major association, make this the year you become a member, and help out any way you can!

Our listing of events for 1997 is as comprehensive as it's ever been. Come January/February/March, I don't want to hear anybody say, "There's nothing to do"!

I've often written in this space about your need—dare I say, responsibility?—to attend industry trade shows. The *GREEN BOOK* contains a list of 134 trade shows and educational opportunities that will take place in 1997. Some you can use, some you can't. But what a luxury and privilege to be in an industry so clearly dedicated to building the professionalism of its members!

Any way you look at it, the 1997 *Green Book* reflects what is happening in the green industry: namely, growth. And in such a time of growth, you need information that's fast, clear, compact and specific to your needs.

The green industry continues to grow and become more sophisticated on all fronts, from agronomy to computer technology to business management techniques.

Whatever your information needs, the *LANDSCAPE MANAGEMENT 1997 GREEN BOOK* will help you seek out the people and products you need to make 1997 a landmark year!

*The green industry's most comprehensive reference guide to products and people.*

# Taking over new turf.

You know our M-Series mid-size tractors for their all-round versatility. Now we're going after some new turf.

Introducing our M4700, 2-wheel drive Turf Special. It's got wide flotation turf tires, a low-profile front end, creep speed for spraying and turf conditioning and a sunshade for added comfort.

Like all Kubota tractors, the M4700 is loaded with features that increase productivity and make operation easy.

An ISO-mounted, semi-flat deck greatly reduces vibration

Creep speed transmission has 12 forward speeds (0.17-13.76 mph) with turf tires.

*Kubota also offers an M4700 model with 4-wheel drive.*

and minimizes fatigue, while hanging pedals add comfort and ease of operation.

The E-TVCS 5-cylinder diesel engine delivers maximum power, with high torque, low noise and low vibration. Enhanced combustion efficiently

reduces fuel cost and lowers emissions.

The Kubota M4700 Turf Special. It's designed from the ground up for landscape and turf applications. And then some.

# *new* Publication!

*This new single-source reference provides the most current and comprehensive information on the basics of turfgrass and landscape management available today!*

## The Landscape Management Manual

edited by  
William E. Knoop

125 pages, softcover

Item #LSMB830

\$34<sup>95</sup>

- Provides an overall understanding of turf and landscape care and management and covers all the basics of the green industry
- Covers all the topics both golf course superintendents and students of turfgrass and landscape management need to know about
- Combines practical information with the tried and true basics of management to provide a single, practical, affordable and up-to-date text
- Features detailed information, charts, diagrams, figures and tables to illustrate key information points

*The Landscape Management Manual* provides a unique, single-source reference of comprehensive information on a variety of turf and landscape topics. It's an ideal handbook for golf course and lawn care superintendents and crew members, and is also appropriate for schools that teach basic turf and landscape management.

# TOUGH TURF

It's a jungle out there. That means your turf needs to be tough. It has to stand up to environmental stress and daily use. And it has to look great and play great. Terra has a full line of turf fertilizers that can help you keep your turf tough—no matter what your requirements or growing conditions. The wide variety of nutrient combinations, including pre- or postemergent herbicide options, will give you the power to

get the job done. There's a fertilizer that's right for every turf management program, including non-play areas. Contact your Terra representative to find out which fertilizer is right for your needs. And don't forget to ask for the brochure featuring the complete line of Terra Fertilizers.
