THE BEST WAY TO MANAGE YOUR TRUCKS IS TO GET THEM FROM A TRUCK COMPANY.

The reason you've never seen the GMC emblem on a car is very simple: we've specialized in trucks, and only trucks, for over 90 years. We've concentrated on commercial issues like power, payload, operating efficiency — all the important details that matter to people like you, who are running a business.

In Trucks, Like In Business, The Details Are Important.

At GMC, we try to make every little detail count on the bottom line. Our advanced Dex-Cool® coolant is designed to go 150,000 miles before a scheduled change. Our medium duty trucks have 250,000-mile synthetic lube in all rear axles and manual transmissions. In the Vortec gas engines of our light duty trucks, you'll get a one-piece serpentine drive belt, platinum-tipped spark plugs and other long-life

components that allow you to drive 100,000 miles before the first scheduled tune-up.¹ They may be details, but they mean your trucks can spend more time on the road, less time in the shop.

You Take Care Of Your Business, We'll Take Care Of Your Trucks.

We offer a full line of trucks for a wide range of applications. When you visit a GMC dealer, you'll find salespeople as specialized as our trucks, who will help you with information, recommendations and ordering assistance. And you'll also find GM-trained technicians providing expert truck maintenance. For more information about GMC, see your GMC dealer, call 1-800-GMC-8782 or visit www.gmc.com on the web.

You specialize in your business, we specialize in trucks.

¹See your owner's manual.

GMC

COMFORTABLY IN COMMAND™

A close-up, low-angle shot of the GMC logo. The letters 'G', 'M', and 'C' are rendered in a bold, three-dimensional font. Each letter is filled with a vibrant red color and has a fine, woven mesh texture. The letters are outlined with a polished chrome border that reflects light, giving them a metallic sheen. The logo is set against a dark, almost black background, which makes the red and chrome stand out prominently. The perspective is from a slightly low angle, looking up at the letters, which adds to their imposing and solid appearance.
