

PREVENT CRABGRASS WITH TEAM
AND EVEN YOUR HARDEST CUSTOMER
WILL CRACK A SMILE.

Dependability is what lawn care and landscape professionals look for in a preemergence herbicide. And dependability is what you get with the time proven Team* herbicide. Since 1985, Team has proven itself effective at stopping a broad spectrum of troublesome grassy weeds, especially crabgrass.

With the rock solid performance of Team, you can expect consistent, season long control.

Because nothing, pound for pound, prevents crabgrass better than Team, you know you've got a preemergent you can depend on to bring a smile to the face of any customer.

For further information on Team, or any other product in the extensive line of DowElanco products, give us a call at 1-800-352-6776. Always read and follow label directions.

14-17: Texas Turfgrass Association Annual Conference & Show, San Antonio; (409) 693-1656.

— We ARE — the FASTEST!

Finale® Herbicide is unbeatable for speed and accuracy.* It gives you the broad-spectrum, long-lasting weed control you need. Fast! Finale wipes out problem grasses and weeds in days—up to twice as fast as Roundup®. And Finale lets you hit your target precisely with complete control for a cleaner, straighter edge. Finale is rainfast in 4 hours, too. And its naturally occurring active ingredient degrades rapidly in the soil. Get the weed control you want, when you want it and where you want it. Get Finale.

** In direct comparison with Roundup® as demonstrated in over 50 university trials in 1993-1995.*

Finale®
HERBICIDE

Read and follow label directions carefully.

Keep these guys off your course.

MERIT® Insecticide is remarkably effective. Both on the course. And off. An application of MERIT on your course in the spring will provide excellent residual grub control through the fall. Under

normal conditions, MERIT can give you residual soil insect control up to four months or longer in turf. In short, it controls grubs and keeps controlling them. If that was all it did, that might be enough to make it your insecticide of choice.

ALWAYS READ AND FOLLOW LABEL DIRECTIONS. © 1997 Bayer Corporation Printed in U.S.A. 97S35A0016

Keep these guys off your case.

But when you add in its low application rate of only 0.3 pound of active ingredient per acre, you have a pretty remarkable product that presents less exposure than current insecticides to birds and fish. A product so good, even the

Greens Committee will love it. To find out more, contact Bayer Corporation, Specialty Products, Box 4913, Kansas City, MO 64120. (800) 842-8020.

FEDERAL HIGHWAY ADMINISTRATION DEPARTMENTS

Under regulations of the U.S. Department of Transportation, Office of Motor Carrier Safety, (202) 366-4001, drivers of trucks weighing more than 26,000 lbs. must be tested for drug use by the employer. Other regulations for trucks this size and smaller—plus other commercial vehicles—vary according to state laws.

STATE PESTICIDE CONTROL AGENCIES

Certification requirements and pesticide use regulations are quite complex and vary from state-to-state. The U.S. Environmental Protection Agency can be reached at (703) 305-6708. Green Industry regulations are found in The Regulation and Certification of Pesticide Applicators, 40 CFR Part 171. Phone numbers are followed by FAX and internet address if available.
