"PennLinks Is Perfect For Our Environmentally Friendly Course"

"PennLinks greens and tees at The Oregon Golf Club fit perfectly with our environmental concerns. Through good cultural practices and balanced nutritional feeding, I have had no need to apply any fungicides, herbicides or insecticides to them in more than 18 months.

When I change hole locations each morning, I walk the greens looking for stress areas and address them before they become a problem. I find PennLinks' upright growth and low thatch producing qualities, combined with light and frequent top dressing, provide near-perfect putting surfaces.

That's what the touring professionals tell me when we host the annual Fred Meyer Challenge.

Oregon Golf Club participates in the New York State Audubon Cooperative Sanctuary program and maintains their high environmental standards. Our club is one of only 45 fully certified courses in the United States.

I believe PennLinks provides the high quality playing surface demanded by today's golfers and also addresses the increasing awareness and responsibility of golf courses to be good stewards of the environment."
