

# IT'S ONLY HUMAN NATURE TO WANT THE BEST OF BOTH WORLDS.

Preventive or curative? Why not both?

MACH 2<sup>®</sup> is the only turf insecticide that gives you the power to prevent or cure grub infestation. Apply mid-May to prevent grubs all season long. Or apply immediately after egg hatch and grubs up to the second instar stop feeding within hours after ingestion, and die shortly after.

Plus, the innovative new chemistry behind MACH 2 Turf Insecticide requires no immediate irrigation, is virtually odorless and offers a favorable environmental profile.

So, when it comes to MACH 2<sup>®</sup>, the best of both worlds is clearly an understatement.

For more information, call 1-888-764-6432 ext. R2551, or visit our website at [www.mach-2.com](http://www.mach-2.com)

# I'm your go-to guy.

I carry all your tools. And keep you in the green. I'm always on the job. And hardly ever rest.

## I live for work.

When your business relies on the growing season, every day is a push for profit. The GMC® classic Sierra® 3500 HD can take the heat. It offers a base payload capacity of up to 9,232 lbs and is available in three wheelbases. Plus, flat frame rails mounted close to the ground make for easier body installation.

Our choice of engines gives you power to burn. Both our standard 290 hp Vortec™ 7400 gas engine and available 6.5L turbo diesel with 195 hp keep your business moving forward. And our standard four-wheel antilock brakes help you maintain steering control even during adverse conditions.

The classic Sierra is relentless power and reliability at your command.

# GMC®

Do one thing. Do it well.™

**Bring me on the job.**

BY SUE GIBSON / EXECUTIVE EDITOR

## How high tech won't help

**A**fter five minutes in a Best Buy store, I've usually found three or four things I "must" have — new software, a portable phone, some audio gizmo. Tech does that to you. Tech toys change constantly, luring us with more memory, more features, smaller size, sleeker design — you name it. They're almost irresistible.

Two things about tech amaze me: the quick and constant innovation and the speed of obsolescence. My four-year-old laptop works fine but it's almost embarrassing to admit it doesn't even have a built-in CD-ROM drive. And it only has 100 MHz. Get serious!

Many of us mistakenly think that because our tech toys are faster and more versatile, they'll make us smarter, faster and more productive. That's the promise, anyway.

If you've actually used every feature in your Word program, please give me call. And if you've never gotten sidetracked using the Internet, call me also. I want to meet you. Even learning the new features of a software upgrade takes lots of your time and effort, not to mention your employees'. I know what you go through when you completely change your computer systems — a hassle of the hundredth magnitude.

### Tech's here to stay

Let's face it — tech is taking over. In response, we've focused several articles on new technology developments for your "mobile" office (page 24); new Internet business services that might solve some of your problems (page 36); and GPS systems that may soon make your management chores much easier (page 32).

But remember, it's so tempting to think that tech is

all you need. It may be fun to use your palm device on the fly, but is it really the most useful thing you can buy for your organization?

I love talking with our editorial advisors, because they have so much good sense. Dwight Hughes, of Dwight Hughes Nursery in Cedar Rapids, IA, purposely keeps his organization small and constantly finds business growth through efficiency.

What does he think about the new tech toys? Dwight uses palm devices and computers, but he gets enthusiastic about his real love — landscape machinery. He tells me about his visits to landscape operations full of gleaming computers and office setups.

But Dwight doesn't want to see that. He wants to know why the owners haven't bought equipment to help their crews work smarter, easier, faster. He wants to know why megabytes are a more important measure than revenue dollars/employee. He wants to know why the production crews are in the 19th century and the front office is in the 21st.

It's a matter of priorities and situations, and smart landscape professionals remember that production is the core of our business. If tech tools make you more productive, go for it. But if your crews need help being efficient, take another look at ground level. Your best investment might be in iron, not silicon.

Contact Sue at 440/891-2729 or e-mail at [sgibson@advanstar.com](mailto:sgibson@advanstar.com)

We mistakenly think that because our tech toys are faster, they'll make us smarter, faster and more productive. That's the promise, anyway.

## Scotts® Platinum Tag. The New Standard In Seed Purity.

The purest, cleanest seed means thicker, more vigorous turf that's worth its weight in gold to sod growers. And Scotts® brings you proven seed purity that goes far beyond the Gold Tag standards.

Scotts Platinum Tag seed sets the highest purity testing standard in the industry. Scotts screens samples 2 times larger

than accepted Gold Tag sampling sizes. That's your assurance that Scotts seed is cleaner than any other, right to the bottom of the bag.

Scotts offers Platinum Tag purity in an exceptional range of Bluegrass, Ryegrass and Fescue varieties. Many are exclusive varieties which have all grown out of Scotts' long history of innovative technology and outstanding performance.

Remember: no company takes more care in research and

development, cultivating, cleaning, testing and packaging than Scotts. And no one takes better care of *you* than your Scotts Tech Rep.

Contact Scotts Customer Service at 1-800-543-0006 or Larry Humphreys at 1-888-763-8873.

# WE GUARANTEE TALSTAR<sup>®</sup> INSECTICIDES WORK.

{OF COURSE, THERE'S NO LIVING PROOF.}

## THE TALSTAR<sup>®</sup> MONEY-BACK GUARANTEE.

When you use Talstar<sup>®</sup> insecticides, we'll guarantee long-lasting performance against a broad spectrum of insects, or your money back. That's because Talstar<sup>®</sup> insecticides have the longest proven residual in the industry, providing up to 6 months control of target pests. The active ingredient, bifenthrin, is the only biphenyl pyrethroid available in the industry. And since bifenthrin contains no alpha-cyano group, Talstar<sup>®</sup> insecticides won't cause the skin or throat irritation experienced with other pyrethroids.

Talstar<sup>®</sup> insecticides can solve your toughest insect problems. In and around buildings, on lawns and ornamentals, even on golf courses, Talstar<sup>®</sup> insecticides control a broad spectrum of insects and mites.

The water-based flowable and the granular formulations can both be safely applied to

sensitive turf and ornamentals without damage or burning. Plus, they're easy to handle and are odor-free at label rates.

Find out more about our new money-back guarantee for Talstar<sup>®</sup> GC Granular Insecticide, Talstar<sup>®</sup> GC Flowable Insecticide/Miticide, Talstar<sup>®</sup> PL Granular Insecticide and Talstar<sup>®</sup> Lawn & Tree Flowable Insecticide/Miticide.\*
