

Guess Which Animal Won't Track On Your Turf.

Elephant (50 psi)

Big Foot (40 psi)

Average Joe (10 psi)

Gator (7.1 psi)

Walk lightly and carry a big load. That's the general philosophy behind the John Deere Gator® Utility Vehicle. Thanks to high flotation tires, a Gator Utility Vehicle has the ability to get out of muddy, swampy terrain, while treading lightly on even the most sensitive turf. Even fully loaded, a Gator* weighs in at only 7.1 pounds per square inch (psi). That's impressive, especially when you consider most other utility vehicles have an average of 20 to 22 psi. Gator Utility Vehicles also feature hefty hauling and towing capacities, plus exceptional balance and stability. And with prices starting as low as \$5995**, there's no reason not to have a Gator on your turf. For more information, see your local John Deere dealer or call 1-800-537-8233.
