

# WALKER vs MID-MOUNT

## A NOSE-TO-NOSE

# COMPARISON

Make an honest appraisal

**BEFORE...** buying a Mid-Mount "Z"

Riding Mower

WALKER MANUFACTURING COMPANY

### What YOU Should Know About the Walker Mower

- ✓ 22 years on the market
- ✓ 6 models available, 11-26 hp, gasoline or diesel
- ✓ 10 interchangeable mower decks, 36" to 62"; grass collection, side-discharge or mulching
- ✓ Multiple use attachments and a full line of accessories
- ✓ In use throughout the USA, Canada and 20 other countries

**These days,** to the point of confusion, the commercial riding mower market is filled with Mid-Mount "Z"s. Many of these machines are being sold with empty points of price, ground speed and overkill of horsepower—ignoring true value to the owner.

To help the selection process, Walker has produced a **Buyer's Guide** (hot off the press). While the Mid-Mount fits some mowing jobs, the **Buyer's Guide** shows 10 ways the Walker is the better choice for many of today's landscaped properties. Pick up a copy of the **Buyer's Guide** at your Walker dealer or write or call for your copy today.

## Maybe it's good other preemergence herbicides stain.

Actually, choosing Dimension® specialty herbicide is a whole lot better for your bottom line. It is, after all, the only option that won't leave filthy, yellow stains on people, pets and equipment. And while Dimension never stains, it always delivers long-lasting prevention of crabgrass, goosegrass, *Poa annua* and
