The only tool
you'll need to
adjust our new
variable arc
rotary nozzles.
That's intelligent.

Introducing Rain Bird® R-VAN — the world's first hand-adjustable variable arc rotary nozzles.

The highly efficient nozzle you've been waiting for is here! The new line of Rain Bird R-VAN hand-adjustable rotary nozzles **saves time** by letting you quickly adjust both pattern and distance by hand — no more searching for a special adjustment tool. Plus, you'll **save money** with a list price nearly 18% less than the Hunter® MP Rotator®*. Putting greater adjustability in your hand and greater savings in your pocket — now that's intelligent.

*Comparison based on 2012 U.S. list price of \$10.00 for Hunter® MP Rotator® MP2000 and \$8.25 for Rain Bird® R-VAN1318 effective 09/01/2012.

*Low precipitation rate, high distribution
uniformity, and thick wind-resistant streams
ensure efficient performance, even in the
most adverse conditions.*

RAIN  BIRD®
